

Follow the steps below to make your own 3D tag!  
This is a beginner-friendly activity for ages 13 and older.

### Supplies:

- Maker world (free account)
- Computer with WiFi
- Creativity & fun

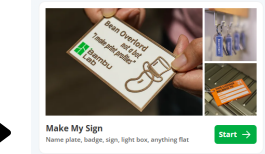

### Step 1: Access Maker World & Lab

Forum Maker's Supply **MakerLab** Community

Go to  
Makerworld.com.  
Create an account.

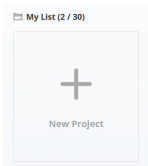

Click on  
MakerLab

Click on "Make  
My Sign" Start  
button.

### Step 2: Make letter

### Step 3: Edit details

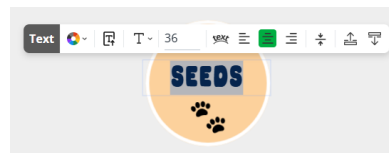

Click on  
"New  
Project"

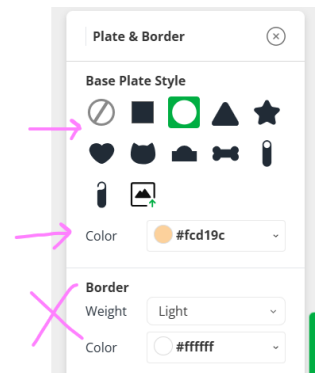

← FirstLastTag 12/100 Saved

Click on Pet Tag.  
Title it with your  
first and last name.

Click on the text  
to edit the text,  
the font, & color.  
Text color = black.

Choose a shape in the far  
right. Edit the color. Don't  
change the border. Adjust  
size of shape. Add hole.

**Click Download → 3MF.**

**Go to [cedarparktexas.gov/makerspace](https://cedarparktexas.gov/makerspace) -> Tools -> Prototyping -> 3D Printers. Submit a 3D print request.**
