

Follow the steps below to make your own loom weaving (up to 1)! This is a beginner-friendly activity for ages 5+ (supervision needed).

Supplies:

- Plastic Loom
- Yarn of various colors
- Scissors
- Popsicle stick

Step 1: Create heddle & frame

Glue 2 craft sticks together side by side. Wrap a section of yarn around the heddle

Tie string around the 18 slots. Tie on each end.

Step 2: Add string

Tie loose string on heddle to top left yarn. Begin weaving it over and under each.

Step 3: Weave & hang

Continue weaving left & right with yarn. Switch out yarn when wanting new colors/textures. Add beads along the way. Tie off yarn at bottom when done.

Take yarn off nails. Tie 1 & 2, 3 & 4, etc. together on top and on bottom. Add any beads, etc. Remove from loom. Add stick & hang
