DIY T-shirt Tote Bags

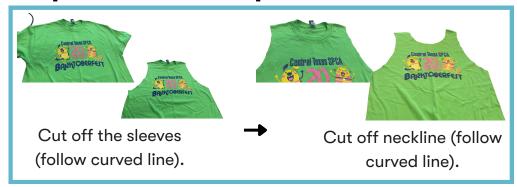

Follow the steps below to make your own upcycled tote bag! This is a beginner-friend activity for ages 3 and above.

Supplies:

- T-shirt of any size
- Marking tool
- Scissors

Step 1: Form the top

Step 2: Adjust length

Plan size of bag (start at end of arm sleeve.)

Draw a line. Cut vertical lines about 34 to 1" apart on both sides.

Step 3: Tie fringe

Tie the first three pairs into 3 separate double knots.

Take the middle set of knots and tie the left strand to the 1st set of strands. Tie the middle right to the 3rd set of strands. Tie the remaining right strand on the 3rd set to a strand on the 4th set. Repeat until done.

Wear your bag & repurpose scraps as a potholder!
