

Follow the steps below to make your own tote!  
This is a beginner-friendly activity for ages 5 and above.

### Supplies:

- Sublimation tote + paper
- Digital image
- Optional: sublimation pens + watercolor paper

### Step 1: Pick an image

Choose an image to use for sublimation.

Cut the image so there is no white space remaining.

### Step 2: Prepare

Choose a tote.

Place your image face-down on the top of your tote.

### Step 3: Sending file over

Cut off pieces of heat resistant tape.

Tape the outside edges of your paper to your tote.

**We will print and heat press your tote together (385 degrees for 60 seconds).**

**Suggest a class and provide feedback.**

Follow the steps below to make your own tote!  
This is a beginner-friendly activity for ages 5 and above.

### Supplies:

- Sublimation tote + paper
- Digital image
- Optional: sublimation pens + watercolor paper

### Step 1: Draw an image

Think of a fun design. Use the sublimation markers to draw it. It will be flipped, so be careful with text.

Cut the image so there is no white space remaining.

### Step 2: Prepare

Choose a tote bag.

Place your image face-down on the top of your tote bag.

### Step 3: Sending file over

Cut off pieces of heat resistant tape.

Tape the outside edges of your paper to your tote bag.

We will print and heat press your tote together (385 degrees for 60 seconds).

Suggest a class and provide feedback.
