

Follow the steps below to make your own candle!
This is a beginner-friendly activity for ages 5 and above.

Supplies:

- Metal/glass jar + lid
- Soy wax
- Wick + essential oils
- Hot plate + steel jar + gloves + pen/straw + scissors + wax paper

Step 1: Preparing the jar

Wrap a wick around a pen and place in container so metal end touches the bottom. Use sticker to adhere it.

Pick an essential oil. Add ~ 3/4 cup of soy wax to a tin can.

Step 2: Melt wax

Turn on candle making kit to 3-4. Place tin can on top with wax.

Put on gloves. Carefully stir until liquid.

Step 3: Add scent

Turn off boiler. Wait about 20 seconds. Add in 1-2 drops of fragrance. Stir gently.

Gently pour hot wax into container with wick (do this over wax paper).

Wait for wax to cool completely. Trim wick. Enjoy!
